A Hole New World

Based on: A Whole New World from Aladdin

I can show you a world
Shining, slippery, lube-y
Tell me darlin',
Now when did you last let your butt decide

I can open your eyes
Turn you over on your front
Over, sideways and under
On a magic butthole ride

A hole new world
A new fantastic point of view
No one to tell us no
Unless we say so
Or if we're not enthusiastic

A hole new world
Orgasmic place I never knew
And when I'm way up rear, it's oh so clear
That now I'm in a hole new world with you

Oh so squeezeingly tight
Indescribable feeling
Soaring, thrusting and hoping

That you washed it out just right

A hole new world
A hole new place inside of me
I’m like a shooting star
I’ve cum so far
I can’t go back and know that you agree

A hole new world (every turn a surprise)
With orifices to pursue (every moment new pleasure)
I’ll do this anywhere, now pull my hair
Glad I share this hole new world with you

Alien Tom

Based on: What's up by 4 non blondes

25 arms and a purple cock
7 legs and a single lock, of hair
That he puts in a bow
I met him cruising round our neighborhood
Selling starlight from his spaceship hood and man
That shit was fucking clean
And so I cry sometimes snorting moonbeams in bed
I try to get it all out and put it in my head
And then, I'd feel a little peculiar
And so I'd wake in the morning and I look outside
And I'd take a big hit and I'd get real high
And I scream at the top of my lungs
Where's Alien Tom?
And I say
A A A A A
A A A
I say A
Where's A-lien Tom?

So I'm high
Oh my god am I high
I'm high all the time
It's my devolution
So I pay
Oh my god do I pay

I pay every fucking day
With my destitution
And so I cry sometimes snorting stardust in bed
I'd try to get it all out and put it in my head
And so, I'd feel a little peculiar
And so I'd wake in the morning and I look outside
And I'd take a big hit and I'd get real high
And I scream at the top of my lungs
Where's Alien Tom?

And I say
A A A A A
A A A
I say A
Where's A-lien Tom
And I say
A A A A A
A A A
I say A
Where's A-lien Tom

25 arms and a purple cock
7 legs and a single lock, of hair
That he puts in a bow

Aliens

Based on: Shallow by Lady Kaka

Tell me something girl,
Is there life outside our tiny world?
I think there must be more,
Maybe they have what they're searching for.

A-li-ens
Go through the wormhole, and find ourselves
With all you folks
Here on this planet, and are those elves?

Tell me something boy,
Do you think it's all a secret ploy?
What will happen next?
Is there something else we came here for?

A-li-ens
I'm feeling worried, looks like they're eating
Cats and dogs
And I just saw one lick two frogs

UFOs land here, next thing I know I'm
Part of their breakfast chow,
They'll swallow me whole, I know I look tasty

You’re on the menu now

Aliens, the aliens,
  Hungry a-li-a-li-ens
Aliens, the aliens,
They’re eating Beyonce now

Maybe I’ll sing songs, they’ll think I’m badass,
They’ll be so glad I came,
But then what is in store, what else am I for?
The big one just called my name.

Tentacles on me, now I’m feeling free
Shlop-op-op, op-op meep-we-wee
Globbidy glip glop, mothership mommy
Shmooping to ziz-orgs now

Bloop ee bloop, dee blip blap blop
Tra-la-la la la-dee zoop dee zop
Noopy blarsh dee wamble wop
O ferm a dee hompo wow
-wow-ow-ow-ow-ow…..eeeee

Don't Store Me Now

Based on: Don’t Stop Me Now by Queen & Daddy Mercury

Tonight, I'm gonna have myself a real good time In my basement
The whole place, I'll turn it inside out, yeah I'm gonna sort out my storage space
But don't store it now don't store it
'Cause I'm gonna be clutter gonna be clutter

I'm a canopy, torn up at the burn, well past my prime
You can make me something neat
Like a costume you'll wear it, only the one time
I'm waiting for the day that theme repeats
I'm going through my stuff, yeah, two hundred old hats
And there's a badger made of pink fabric
I think I'm gonna still need it
I wanna make another piece of art outta you
Don't store it now, I know you think you'll use me, you got a problem
Don't store it now, don't keep those carpet offcuts, you hoarding goblin

Don't store me now - Don’t store me
Cause I'm takin' up your space
I just wanna store it all, yeah

It's a fleshlight full of human teeth, with no power cord
I hope these batteries, don't make it explode
And a sex machine, piled with Nana's bling and a fuzzy light
And I won't just can't won't let it go
I'm going through my stuff, yeah, three hundred small hands
A box-cutter covered with gems

I think I'm gonna still need them
I wanna make another piece of art outta you

Don't do it, don't do it, don't do it - Hey, hey, hey
Don't do it, don't do it, ooh, ooh, ooh - I want it
Don't do it, don't do it, hey alright, have enough space,

Oh, I'm going through my stuff, yeah, four hundred small ducks
Yeah they all fit into a giant cup, hey
I think I'm gonna still need them
I wanna make another piece of art outta you, hey, hey

Don't store it now I know you think you'll use me, you got too much shit
Don't store it now if you wanna keep all those lids, that don't even fit
Can store them now 'Cause I'm movin' to a bigger place
Can store them now, yes, I'm getting a garage
Now I'm gonna store it all
Meow

Eight Dates a Week

Based on: Eight Days a Week by The Beatles

E - N - M's for me babe,
I like getting laid.
Hope you like it too babe,
It's just the way I'm made

Fuck me, love me, hold me, leave me,
Gotta sleep, shower, and re-peat
Eight dates a week.

#short instrumental#

Your feelings are yours babe
'Cos anarchy's my jam
You say your nerves are frayed, babe
But I don't give a damn

Fuck me, love me, hold me, leave me,
gotta sleep, shower, and re-peat
Eight dates a week

Eight dates a week
My polycule is fu-u-ull
Eight dates a week
Is too many to show I care

Guess I just got dumped, babe
That’s good news for you
Maybe you’ll be bumped, babe
To partner number two

Fuck me, love me, hold me, leave me
gotta sleep, shower, and re-peat
Eight dates a week

#short instrumental#

Not sure when I’ll see you
Next month’s pretty full
N - R - E is here, boo
I’m caught up in its pull

Fuck me, love me, hold me, leave me
gotta sleep, shower, and re-peat
Eight dates a week
Eight dates a week
Eight dates a week
Eight dates a week.

Fit in Your Butthole

Based on: Doggie in the Window

What stuff can you fit in your butthole?
The ER docs won't bat an eye.
Buzz Lightyear, a fork, a Ketchup bottle,
It's not hard to find things to try.

Do you want this Ketchup in your butthole?
We didn’t put it on our fries
These grill tongs should give you reassurance
This ball gag will muffle your cries.

Insurance will cover all the x-rays
That hamster was bored anyway
That pint glass won't come out in one piece but
The stitches won't lengthen your stay.

I'm not sure my ass was meant to hold this
Big can of deodorant spray
That Barbie just lost its rubber head but
She'd smudged her cute smile anyway

I thought I had turned my phone to vibrate
Now grandma can't give me a call
I wish that live eel wasn't electric
That light bulb was no fun at all.

Hanging at the play space

Based on: Leavin' on a Jet Plane by John Denver

All my makeup's on
I'm ready to go
I'm standin' here out in the street
My sexy outfit right inside my bag
Now my car's arriving
A ride that's sweet
Anticipation
To lick some feet
Already I'm so ready
I could shag

So kiss me if you consent
Whether you are straight or bent
Or however you identi-fy
'Cause I'm hanging at the play space
All my shame gone without a trace
No matter how I'm sized
(Average dick energy, yeah!)

I'm at the door, my wristbands green
I'm right here, you can touch my peen
Technically the bracelets don't mean that
The room is draped with fabric sheets
Just suspend your disbelief
The dungeon's in a closet in the back

So flog me if you consent
Whether you are straight or bent
Or however you identi-fy
'Cause I'm hanging at the play space
All my shame gone without a trace

No matter how I’m sized
(“Boyfriend dick!”)

I talked about my STIs
I went through all the words in FRIES
I know consent should be a two way street
“F is for Freely Given, R is for Reversible, I is for Informed,
E is for Enthusiastic, and S … is for … Specific!”

So many kinks I want to try
Puppy play just caught my eye
I wanna beg and earn so many treats

So choke me if you consent
Whether you are straight or bent
Or however you identi-fy
'Cause I'm **pegging** at the play space
All my shame gone without a trace
No matter how I’m sized
(“All sizes are great!”)

My mistress got me gagged and bound
My dildo’s in the lost & found
I know the fun has only just begun
I made a friend, they fucked me hard
I’m not sure why I’m covered in lard
So many kinky things that made me cum

So cuddle me if you consent (“*aftercare!”*)
Whether you are straight or bent
Or however you identi-fy
'Cause I'm hanging at the play space
All my shame gone without a trace
No matter how I’m sized
(“We love you the way you are!”)

If You Wanna See My Wormhole

Based on: Wannabe by The Spice Girls

Yo, I'll tell you what I want, what I really, really want
So tell me what you want, what you really, really want
I'll tell you what I want, what I really, really want
So tell me what you want, what you really, really want
I wanna, (ha) I wanna, (ha) I wanna, (ha) I wanna, (ha)
I wanna really, really, really, wanna see your wormhole

If you want my planet, better get my moon
If you want my ASSteroid, better make it soon
Now don’t go breathing my atmosphere
Get into my rocket, come in through the rear

I'll tell you what I want, what I really, really want
So tell me what you want, what you really, really want
I wanna, (ha) I wanna, (ha) I wanna, (ha) I wanna, (ha)
I wanna really, really, really, wanna see your wormhole

If you wanna see my wormhole, escape my gravity (escape my gravity)
Make it last forever, in my cavity
If you wanna see my wormhole, find my molten core
Probe the depths of space, I want you to explore
Oh, what you think about that?
Yeah I like how that feels
So you you can fill up my hole, that’s a big deal
This ain’t Arrakis, my hole ain’t dry
If you melt my magma we could get real high

I'll tell you what I want, what I really, really want
So tell me what you want, what you really, really want
I wanna, (ha) I wanna, (ha) I wanna, (ha) I wanna, (ha)
I wanna really, really, really, wanna see your wormhole

If you wanna see my wormhole, look around the bend (Around the bend)
In a space time bubble my wormhole never ends
If you wanna see the shrinkrays my wormhole emits
Come a little closer, I think it'll fit

So here's a story from the Milky Way
You wanna fly with me, you gotta fight the gravity
We got Mars in the place, a desert out in space
We got Sol with her glow, who's putting on a show-
Ju-pee's mass, is mostly gas, got a real phat ass
And as for me, haha, warp three
Slam your rocket down and then we go to town!
Slam your rocket down and then we go to town!

If you wanna see my wormhole
Get your warpspeed on
Steer into my deathstar
Do it all night long
If you wanna see my wormhole
It's inside my mouth
Didn't see that coming
You thought that it was South

If you wanna see my wormhole
You gotta, you gotta, you gotta, you gotta, you gotta
Slam, slam, slam, slam
Slam your rocket down and then we go to town
Slam your rocket down and then we go to town
Hey hey hey hey hey
Slam your rocket down and then we go to town
Slam your rocket down and zigazig ah
If you wanna see my wormhole

I’m a Healer

Based on: I’m a Believer by The Monkees

I thought drugs were only meant for criminals
Not upstanding citizens like me
Drugs were out to get me
That’s the way it seemed
Propaganda haunted all my dreams

Now I’ve found my place
They call me a healer
Donation based
We’ll go for a ride
It’s medicine (oooh)
I’m not a dealer
I am healer and a guide

I thought drugs were only good at Burning Man
Didn’t fit into your daily life
Then I changed my practice
Daily microdose
And I learned to shove ‘em up my nose

Now I’ve found my place
They call me a healer
Donation based
We’ll go for a ride
It’s medicine (oooh)
I’m not a dealer
I am healer and a guide

I spend more than half my time on medicine
Seems the more I take, the more I’m me
Purging all my traumas
By taking ibogaine
And conscious snorting of cocaine

Now I’ve found my place
They call me a healer
Donation based
We’ll go for a ride
It’s medicine (oooh)
I’m not a dealer
I am healer and a guide

I think you should come and join my Signal group
Set the message timer for one week
See my offerings
All these tryptamines
Then you’ll understand those hippie memes

Now I’ve found my place
They call me a healer
Donation based
We’ll go for a ride
It’s medicine (oooh)
I’m not a dealer
I am healer and a guide

#instrumental#

Yes I’ve found my place
They call me a healer
Donation based
We’ll go for a ride
Said I’m a healer, yeah, yeah, yea,
yeah, yeah I’m a healer
Not a dealer
I said, I’m a healer,
I’m a healer and a guide

Let's Blow Up The Moon

Based on “Fly Me to the Moon by Frank Sinatra

Let's blow up the moon It'll make an awesome sound
And let's give them a fireworks show To see the whole world round
In other words, party time
In other words, chlorine oxides
I love outer space Weapons are much less controlled
There's no regulation Out in all that black and cold
In other words, TNT
In other words, space debris

Let's blow up the moon, why not, we have several more
There's so much to break out there I can't wait to explore
In other words, big kaboom
In other words,
In other words, big kaboom

Libido

Based on Let It Go from Frozen

I'm on the couch swipin'
on the apps tonight
Dopamine lights up my brain
Every ping a hit of pleasure
But the outcome is a shame

Now I must sift through this
large mass of posing men
Selfies in the mirror
Machu Picchu again

Swipe left swipe right
don't take too long
Skip that dude
he's too into ping pong
That dog is cute
but is it his?
Bet it's not his…

Hormones no! Hormones no!
I'm tired of this stupid game
All these bros, All these bros
Why do they all seem the same?

Will I find what I'm looking for
And what is that?

What am I looking for anyway?

Society expected me
to have kids by now
But why does patriarchy
want to bring me down?

It's time to see
what I can do
To test the limits and break through
No right, no wrong
No rules for me, I'm free!
Libido, Let me know
Get in touch with my own desire
Libido, Yes I know
This woman on Feeld is fire
Here I stand, Goddess that I am
Let the men rage on
They never got me off anyway

Libido, Yes I know
I'll be whoever I am
Libido, it's my show
That straight cis girl is gone
I don't care what the haters say
Let the stories go
The chicks give better head anyway

Not really ironic

Based on “Ironic” by Alanis More-Regret

A young man arrived at the gate
He’s got his tickets, but it starts the next day
It’s when you re-up, coz you’re ready to play
Then your first dose hits you, to your dismay
It’s not really ironic, it just sucks?

It's a bad trip, on your favorite day
It's the free food, when you've already ate
It’s electrolytes, that you just didn’t take
Poor choices were made, it figures

Mr. Play It Safe, had a self-care plan
Packed his sunscreen, and a little hand fan
Took pills from new friends, surely that’s allowed?
And as the trees tried to grab him, he thought
My bones are too loud!
Not really ironic, it just sucks?

It's like diarrhea, at a crowded stage
It’s a free ride, from the friend who's delayed
Finally found your crush, but you took too much K
Poor choices were made, it figures

Its 4am, and you're starting to shake
Took a sleeping pill, but it might be a fake
It's like ten thousand shiftpods, when all you need is your tent
It's like setting your alarm
But doing it in the calculator again
It's not really ironic, it just sucks?
Not even a little ironic
It's just a bad thing

It's the hot tub, with just your boss
It's the baggie, that the label fell off
It's like goin' to bed, when you're just blasting off
Poor choices were made, it figures
Poor choices were made, it figures

Orgy Queen

Based on: Dancing Queen by ABBA

She can fuck, she can ride
Having the time of her life
See that girl, hear her scream
She is the Orgy Queen

Friday night and the lights are low
Looking out for the place to go
Where they have the best dungeon
Getting in the swing
She came to look for a king
Anybody could be that guy
Night is young and the crowd is… high
With the right orgy playlist
Everything is fine
She’s in the mood for a scene
And when she finds her team...

She is the Orgy Queen, young and sweet,
Only thirty three
Orgy Queen, feel the beat from the spanking scene
She can fuck, she can ride
Having the time of her life
See that girl, hear her scream
She is the Orgy Queen

I’m a teaser, I turn 'em on
Leave them burning and then I’m gone
Looking out for another, anyone will do
I’m in the mood for some play
And when I get my way...

I am the Orgy Queen, young and sweet
Only thirty three
Orgy Queen, feel the beat from my spanking scene
I can fuck, I can ride,
Having the time of my life
See me come, hear me scream,
I am the Orgy Queen

Our Bits Just Won't Fit

Based on “I Want It That Way” by Backstreet Boys

I love your soul
Can't find your hole
And I must admit
Our bits just won't fit
Our homes are two worlds apart
My dick's a pie chart
It's bullshit
Our bits just won't fit

Tell me why
Your mouth is full of big toes
Tell me why
I burn you when I get close
Tell me why
Your breasticles are yarn knit
Our bits just won't fit
You have fourteen tongues
It should be so fun
Yes, I have fourteen clits
But our bits just won't fit
Tell me why
Your liver's on the outside
Tell me why
My orifice is calcified
Tell me why
There's neurotoxin in your spit
And our bits just won't fit

Now I can see that our bits don't align
It's just our geometry, yeah
But with enough wormholes, I know we can fuck
Mutate our anatomy
Your butt caught my eye
It's made of Wi-Fi
You are (You are, you are, you are)
A freaky alien!

You live in five dimensions
I need a dick extension
I wanna feel your glowing tits
But our bits just don't fit
Tell me why
You're made of information
Tell me why
I'm just a cloud with no skin
Tell me why
Your mandibles don't make me drip
Our bits just won't fit
Tell me why
Here's something that we could try
Let us try
We're going through a wormhole
Does this fly?
I've gone through a retrofit
Our bits just might fit
Now our bits just might fit

Part of Your Shtick

From The Little Merkin

Look at this place
Isn't it neat?
Wouldn't you say this art project's complete
Wouldn't you think it's a camp… a camp
That has everything?
Look at this squish
Fuzzies untold
How many pillows can this Stage Left hold
Looking around here you'd think
Sure, they've got everything
They've got outfits and costumes a plenty
They've got weirdness and silly galore
You want on-theme gags
They've got twenty
All that art
It's so smart
And there's more

I wanna see what's up every street
I wanna play, wanna be so funny
Walking around with my - what do you call it…Oh - shtick!

Wand'ring round, you don't get too far
Snorting some K makes it even harder

Too many lines, and you might get a little… Sick

Nowhere is quite like it is here
‘specially since I am kind of queer
If you really know me, please let me be
Part of your shtick

What would I give if I could live
just doing projects
What would my boss think of the loss
of all that time
Thought of this rhyme on company dime
Wish I could just make it more complex
Chat G - **P** - T
Just can’t help me
Fucking A - I
I’m ready to jam with the pickup band
Tell ‘em my tempo and get some backup
Where’s the mic and how do I turn it…….On

Is this mic on?
Wouldn’t I love, love to explore
That stage up above?
Down on my knees
Please let me be
Part of your Shtick

Personal Space

Based on: YMCA by The Village People

Big stick, and I'm my friend's plus one. It's my
first time, she said this would be fun. It's a
theme camp, and it's at a new site
And I carpooled with some strangers
And they picked me up at my home, and this
One guy, kept talking on the phone he was
Far gone, had some unhinged ideas
It's a lot for me to process

I gotta get me some Personal Space
I gotta get me some Personal Space
I could make an excuse, I could go for a walk
I could hide in the parking lot
I gotta get me some Personal Space
I gotta get me some Personal Space
I could ride in the trunk, I could just take a cab
For a break from the way he blabs

What's wrong, said the guy on the way You seem
Flustered, is it my pink toupee? Are you
Wondrin', should we stop at Safeway?
Did you know your butthole's sentient?

Thank god, seems the ride's almost done I can
Walk out find my friend have some fun
We just got here and just five minutes in
I'm abducted by a clown mob

I gotta get me some Personal Space
I gotta get me some Personal Space
I could hide in my tent, I could go take a walk
But I really don't want to talk

I gotta get me some Personal Space
I gotta get me some Personal Space
I could go on side quests, I could have a meltdown
I could catch a ride into town

Poor soul, I was losing my mind. They were
Too close, there was nowhere to hide. Then this
Weird squid with tentacles for arms
Walked up slowly and he whispered
My friend, there's something you should know there's an
Option for some accessories
You can fasten tentacles to your suit
Folks will get the hell out your way

I finally found me some Personal Space
I finally found me some Personal Space
I can dance by myself, I can silently scream
In my own tiny orbit dream

Personal space, I finally got me some personal space
Hey now, hey now, a solution's in place
Hey now, hey now, get the fuck out my face

Personal space, could you please give me some personal space
Hell yeah, hell yeah, no more anxiety
Hell yeah, hell yeah, there's a buffer round me
Personal space, yeah don't fuck with my personal space
No more, no more yeah I'm good by myself
No more, no more, I don't need your damn help
Personal space, and I got myself personal space
Hell yeah, hell yeah, I'm not listening to you
La-la-la-la, shmooby-doo-doo-doo-doo
Personal space, I finally got me some…personal space

Sheep

Based on Creep by Radiohead

When I was at the store
Couldn't choose what to buy
The theme is a wormhole
Could I be the sky?
I could be a planet
Or alien spleen
But is that a costume?
Don't think it's a costume

I'm a sheep, I'm not that weird though
Why the hell am I doing this?
Do I belong here?

I don't care about shticks
I just want to look cool
This is such a weird party
There's no longer a pool
I want you to like me
And think I'm profound
But I'm such a normie
I'm so fucking normie

I'm a sheep, I'm not that weird though
Why the hell am I doing this?

Do I belong here?

[Bridge]
Ooh, ooh, I'm dancing with my friends
I'm dancing
It's fun, fun, fun, fun
Fun Fun

The schtick's pretty funny
Maybe I'll join
I finally get it
I think that I get it

I'm still a sheep, kinda weird though
What the hell did I have to fear?
I guess I belong here
I guess I belong here

Stuck in this Pod

Based on Since U Been Gone by Kelly Clarkson

Here's the thing, it's only us two
Out in space, we're the astronaut crew
Yeah, yeah Stuck in this pod
Cryosleep to pass the time
Woke you up 'cuz you're lookin so fine
Yeah, yeah stuck in this pod

And all I ever hear you say
Is "we're supposed to be asleep"
And yeah that's what our mission says…
But we're stuck in this pod
We might as well have a good time
We're both pretty hot, yeah yeah
Wanna fuck? You said yup, since we're stuck
Stuck in this pod

I've never done it, in Zero G
Floating fluids and they're flying at me
How do we clean this up?
And all that I can hear you say is
Your semen just clogged the vents
I wish it would evaporate… now the
Warning light's on
We can't breathe and we might die

We knew it was wrong, yeah yeah
Thanks to you now we're doomed, the oxygen's gone…
Stuck in this pod

Jizz in the air, we blew it
Such a mess, it's everywhere
Open your mouth and try to catch it
Om nom nom nom Om nom nom nom

The semen is gone - yeah, yeah
We can breathe for the first time, let's
Get back to our jobs, yeah yeah
Are we cool? (sure, we're cool)
Let's forget, forget what went on
We're still here for a long time
Let's just move on, yeah, yeah
You're still cute (you're still cute)
Go again? (No)
Even though (even though)
We're still stuck, stuck in this pod
Stuck in this pod
I'll just jerk off
Om Nom Nom Nom

Take it slow

Based on: Country Roads by John Denver

New connection, getting spicy
Feel my desire, got to keep this vibe alive.
I don’t want to bring up STIs
Talk about my traumas
So nothing's a surprise

Take it slow, say your no
Use your words, no need to guess
You’ll discover new horizons
When you find your shared yes

Oh and now we’re discussing HSV
Can I keep my boner
While we state boundaries
You said yes now
But is it a fuck yeah?
You have got my full vow
To share in aftercare

Take it slow, say your no
Use your words, no need to guess
You’ll discover new horizons
When you find your shared yes

bridge

I feel a shift in your body and it tells me
Now it would be good to pause and check in with you
We can change our minds about our boundaries
And we know that this is always true, always true

Take it slow, say your no
Use your words, no need to guess
You'll discover new horizons
When you find your shared yes

Take it slow, say your no
Use your words, no need to guess
You'll discover new horizons
When you find your shared yes

Too Sober

Based on Unwritten by Natasha Bedingfield

I am too sober
Can’t speak my mind
I’m too refined
The night’s beginning
The vape in my hand
Now what is my plan ?
Staring at the baggie before me
Open up the dirty ground score
Let dance safe illuminate what’s really in here
Hoping for something that’s designer
So close I’m about to taste it
Release all of my fucks

Feel the drugs in my butt
I just much prefer to boof them
Keep my microbiome clean
Nothing else, nothing else
Can do just what it does to me
I just need to get it tested
At this point i'm so invested
Your tent is where my boof begins
The rest is still unwritten

Oh, oh, oh

I got it tested
Turns out my find is great for these vibes
We’ve been conditioned to just eat our drugs

But I can't live that way
Staring at the boof stick before you
Open up your dirty butthole
Let the drugs illuminate the truth of all existence
Reaching for something with your consent
So close I can almost taste it
Release all of my fucks

Feel your dick in my mouth
No one else can suck it for you
Only you can let it in
But hang on, there are still
Lots of drugs in your butt
Drench yourself in drugs we've chosen
Then live your life with ass wide open
Tonight is where our shtick begins

Feel the drugs in your brain
No one else can feel it for you
And it's time to leave the tent

But I can't But I can't
Find the zipper and pull
Now we're stuck in here forever
But the night keeps getting better
Tonight is where we fuck all night
Our shtick is still unwritten
Our shtick is still unwritten

We Are The Show

Based on I Will Survive by Dino Fekaris & Freddie Perren

At first I was afraid, it was my first time
Thinking this is fucking weird and I can't even rhyme
But then I found all this weird art
And I started to transform
I grew weird
My shenanigans were cleared!

And then I took
MDMA
I just tested it on site so I can live another day
I know all about consent
I'll respect your boundaries
I'll make sure your "yes" is "hell yes"
You'll be back to finger me! ("again!")
Keep the lid on, keep Take 3 hush!
Look around now
This container's held by us.
You're the one who'll be a friend when I'm alone
If I ask you
A freak like me, yeah I know!
Yes that's right, we are the show
And if I get in trouble to the Strangers I will go
And if my brain gets dozy
I've always got the Cozy
We are the show

We are the show!

It took all the strength I had not to post online
If SIT bounced me off the list maybe I'd still be fine
I know there is a Path Back, I could redeem myself
How I cried
But now I hold my head up high
And you see me, I'm on the crew!
I took the Stranger shift at midnight
To look after you
So I heard the hot tub's open
But I think this is a spoof
Tried to find the Strip Club
But I'm lost in Shire Le Boof

Keep the lid on, keep Take 3 hush!
Look around now
This container's held by us.
You're the one who'll be a friend when I'm alone
If I ask you
A freak like me, yeah I know!
Yes that's right, we are the show
And if I get in trouble to the Strangers I will go
And if my brain gets dozy
I've always got the Cozy
We are the show
We are the show!

I stumbled in the dark and medics patched my snout
Sex art safety closed my dungeon now my dildo's out
But CIT said there's the teahouse and that I should take a nap
Can't use my phone
Can I ride with you back home?

And now you see, I leave no trace
I’m a little less vanilla
And a lot more gay
And I know the Golden Rules
Plus I’m sleeping with a clown
Now please don’t be a fool
By burning this place down.

Keep the lid on, keep Take 3 hush!
Look around now
This container's held by us.
You’re the one who’ll be a friend when I’m alone
If I ask you
A freak like me, yeah I know!
Yes that’s right, we are the show
And if I get in trouble to the Strangers I will go
And if my brain gets dozy
I've always got the Cozy
We are the show
We are the show!

Welcome to The Shindig

Based on: Welcome to the Internet by Bo Burnham

Welcome to the Shindig
Have a look around
Anything that brain of yours can think of can be found
We've got endless entertainment
Some better, some worse
If none of it's of interest to you, you'd be the first

Welcome to the Shindig
Come and take a peek
Would you like to suck a cock or any strangely sticky feet?
There's no need to panic
This isn't a test
Just bring your little schtick and we'll do the rest.

Welcome to the Shindig
What would you prefer?
Would you like some drugs to schtick all night or fall asleep in fur?
Get married, on acid
By peeing on stage
We got a million different ways to engage.

Welcome to the Shindig
Put your cares aside.
Here’s a line for pussy waffles
Here's a real high guy who cried.
It’s boiling, or freezing, there’s orgies galore
And a bunch of strung out clowns wrestling naked in the river… welcome to Big Stick Shindig everybody

Could I interest you in everything?
All of the time?
A little bit of all the drugs

All of the time
Spectating’s a tragedy
Sobriety’s a crime.
Anything and everything
All of the time

Welcome to the Shindig
Hold on to your socks
Cause a random guy just offered to take photos of your cock
They’ll be grainy and off-putting
He’ll want to take more
Don't act surprised, you know you like it, you whore

See a man batcocking
Get a spanking ‘till you’re pink
There’s way too many bodies
All the orifices stink
Talking AI with a doomer
Then go hot tub with a gooner.
Chasing sasquatch on a rumor
Take a selfie with a cougar

Get lost in the forest
There’s no need to be alarmed
Go swim in the river
Just make sure you don’t drown
Get painted on your body
Lick a small alien lolli
Try a three day go at poly
Then go process it on molly

Here’s a wormhole entry station
Best not bring your Mom
Go see pickles on the main stage
Do a kink scene with a dom

This camp hands out cheesits
That one butt plugs shaped like jesus
Do your cocaine in the hot tub
Just make sure that you don't drown

Could I interest you in everything?
All of the time?
A little bit of all the drugs
All of the time
Spectating's a tragedy
Sobriety's a crime.
Anything and everything
All of the time

Could I interest you in everything?
All of the time?
A little bit of all the drugs
All of the time
Spectating's a tragedy
Sobriety's a crime.
Anything and everything
All of the time

Could I interest you in everything?
All of the time?
A little bit of all the drugs
All of the time
Spectating's a tragedy
Sobriety's a crime.
Anything and everything and
Anything and everything and
Anything and everything and
All of the time

Your Art

Based on "Your Song" by Meltin' John

It's a little bit silly these things that we do
We stick things together with old, string and hot glue
Don't have much money but boy I've got heart
Let's all come together and show off our art
Some of it's pretty and some of it's, not
It'll all, look perfect by the time that we've dropped
I took on too much but it's the same every year
My gift is my ADD and too many ideas

You can tell everybody this our art
It took me five weekends to bedazzle this part
I hope you do find I hope you do find
The beauty in all
How wonderful life is when we call this art

I was using my glue gun and burned myself twice
But a few, of these outfits, well they're looking quite nice
But the night's have been quite long while I made this art
Why did I have this idea so close to the start
So excuse me for buying six kinds of glue
I get kind of silly when I'm crafting on fumes
Anyway the thing is what I really mean
Yours has the most zip ties I've ever seen
And you can tell everybody this is our art
It may be half finished but it came from the heart

I hope you don't mind I hope you don't mind
That I stayed up til three
To finish this song off and try to make it rhyme
To finish this song off and try to make it rhyme
